

After many years of successfully building the training capability of compliance professionals across a number of industries, RG Consulting Services identified a need to create a training option that was more easily accessible and affordable.

RGCS's eLearning offering is delivered to your desktop or laptop computer by way of an independent learning management system. On signing up to an RGCS eLearning offering you will be issued with a unique log in, which will give you 12 months continued access to the eLearning module you have purchased.

Each module is built on solid adult learning foundations and incorporate a blend of visual, auditory and kinesthetic mediums. They are also highly practical and tailored specifically to the needs of compliance professionals.

Investment:

\$295.00 per individual module per person

\$590.00 per bundle package per person

NOW AVAILABLE

Compliance Training Delivery Essentials

The perfect program for those who are new to the delivery of compliance training or for those who would like to improve the delivery of their current compliance training programs.

Learn how to transform your simple slide deck based presentations into interactive and engaging learning programs.

You will also learn a number of aspects and elements on adult learning, but most importantly you will be given a number of key fundamentals on how to make your compliance training sessions:

- More impactful
- More memorable
- More enjoyable for your learners, and
- Less stressful for you to prepare and deliver
